REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: It is agreed that Bowman et al (6,861,205) teaches forming and exposing photosensitive layers in succession. each photosensitive layer in Bowman et al reference is exposed before another layer is formed. Bowman et al fails to disclose the limitations "a second layer is formed by applying a photosensitive material before the first layer is exposed", as claimed in claims 10,29,38,44 and 47. The prior art does not disclose or fairly suggest, by themselves or in combining with any other reference, to meet a combination of all the limitations as claimed in claims 10,29,38,44,47. Therefore claims 10-17, 29-32, 38, 44, 47 and 49 could be allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
